CARBON FILTRATION
WHOLE HOME SYSTEM

A single whole-home carbon tank for homes whose water already tests soft but still tastes and smells of chlorine. Uncommon around here — we check your utility's numbers first. The drinking-water system is included.

> **It does not soften.** If your water is hard, this is not the system for it — and we'll tell you so on the call.

COCONUT-SHELL CARBON

- **Coconut-shell carbon** takes out the chlorine taste and smell at every tap.
- **Catalytic carbon** available where your utility uses chloramine.

PASS-THROUGH HEAD

- **No salt, no electricity, no wastewater** and no cleaning cycle.
- **Polishing gravel base** keeps flow even through the carbon.
