DUAL TANK WELL
IRON & HARDNESS SYSTEM

Built for well water with orange or rust staining. Tank one traps iron and knocks back sulfur by air injection — no chemicals to buy. Tank two softens.

> Every well is its own water source — depth, aquifer, casing and pump all change what comes out. So every well gets a **free test** first, and any add-on has a published price.

AIR INJECTION — TANK ONE

- Air injection oxidizes **iron and sulfur** — nothing to dose or refill.
- **Catalytic carbon + Katalox Light** hold what comes out and flush it on backwash.
- **5-micron pre-sediment** housing included.

HIGH-CAPACITY RESIN — TANK TWO

- **10% crosslinked CG10 resin** against an industry-standard 8% — takes hardness to zero grains and lasts longer.
- **Polishing gravel base** keeps flow even across the bed.

HANKSCRAFT CERAMIC-DISC VALVE

- **Ceramic discs** instead of rubber seals — longer life, less maintenance.
- Programmable, with **long-term memory** and a **72-hour backup** — a power cut won't lose your settings.
- **Demand-metered** — it cleans itself on the water you actually use, not on a timer.

Application	**Private well**	Configuration	**Two tanks, air injection**
Tank 1	**Katalox + catalytic, 1 cu ft**	Tank 2	**Resin 1.5 cu ft**
Capacity	**48,000 grains**	Tanks	**10″ × 60″**
Valve flow	**25.5 GPM**	Salt per cycle	**9 lbs**
Water per cycle	**45–60 gal**	Brine tank	**15″ × 17″ × 36″**
Salt storage	**150 lbs**	Electrical	**110 volts**

WARRANTY

Tank shell, ceramic disc and dry parts — **lifetime**. Control valve and media — **5 years**. Drinking-water system — **1 year**. Our workmanship — **12 months**, in writing. Our workmanship coverage transfers with the home after a signed handover.

WHAT EVERY INSTALL INCLUDES

- Installed by **licensed plumbers or insured professional installers**, to our written install standard.
- A **free well test** first: hardness, iron, pH, sulfur.
- The **drinking-water system** with its own faucet, a walkthrough, a **welcome packet** and two bags of salt to start.

OFTEN ADDED

pH Booster · UV (lab-confirmed) · XL well build · Tankless drinking water

AFTER THE INSTALL

Filter Plan — $200 a year. Proprietary filters for your drinking-water system, supplied only by us — we change them for you on schedule. · **Well Care** — well visits, priority calls. *Coming soon.*

Price is for a **standard garage loop install**. Trenching, new outlets or outside installs are extra, quoted up front. Launch price is our cash or check price; financed purchases use the regular price.
