PH BOOSTER
ACID NEUTRALIZER

Acidic water eats copper pipe, fittings and water heaters from the inside and leaves blue-green stains. A calcite tank at the main line raises low pH back toward balance, so the whole house is protected.

> Recommended only from an **actual pH reading** — the free well test confirms it before it's quoted.

Application	**Acidic water**	Configuration	**Single tank**
Media	**Calcite**	Valve	**Pass-through**
Electrical	**None needed**	Salt / backwash	**None**
Tank size / flow	**In writing**	Decided by	**pH reading**

CALCITE MEDIA

- Natural **calcium carbonate** dissolves slowly as the water passes and raises the pH.
- Topped up as it dissolves — not replaced.

PASS-THROUGH HEAD

- **No salt, no electricity, no backwash.**
- Fitted **ahead of** a softener or well system, so the water is corrected first.

WARRANTY

Tank shell and dry parts — **lifetime**. Media — **5 years**. Our workmanship — **12 months**, in writing. Our workmanship coverage transfers with the home after a signed handover.

WHAT EVERY INSTALL INCLUDES

- Installed by **licensed plumbers or insured professional installers**, to our written install standard.
- A **pH reading** from your free well test before it's quoted.
- Installed at the main line, ahead of any other treatment.

OFTEN ADDED

Pre-sediment filter

AFTER THE INSTALL

Well Care — well visits, priority calls. *Coming soon.*

LIMITED LIFETIME BY COMPONENT
