REVERSE OSMOSIS
TANKLESS · 7 STAGE

Our best drinking water: seven stages in one compact unit under the kitchen sink, made as you use it, with an alkaline filter built in.

Tested and certified by NSF International to NSF/ANSI 58 for reduction of dissolved solids, with a lead-free water path built to NSF/ANSI 372. **Purified, then remineralized** — the same two steps behind many premium bottled waters, right from your kitchen tap.

Stages	**7**	Membrane	**800 GPD**
Flow	**0.53 GPM**	Filtration	**0.0001 micron**
Drain ratio	**2:1**	Storage tank	**None**
Electrical	**110 V outlet**	Alkaline filter	**Built in**
Certified	**NSF/ANSI 58**	Faucet	**Included**

SEVEN STAGES IN THREE FILTERS

- **Composite pre-filter** — sediment and carbon block, ahead of the membrane.
- **Spiral-flow RO membrane, 800 GPD** — filters down to 0.0001 micron. Rated by the manufacturer to reduce **heavy metals, dissolved solids, chlorine and other everyday contaminants**.
- **Alkaline post-filter** — a final coconut-shell carbon stage for taste, then the alkaline stage.

ALKALINE FILTER BUILT IN

- RO takes out most of what's dissolved, good and bad. The alkaline stage adds back a **small, measured amount of calcium and magnesium** — the minerals that give great drinking water its taste.
- The result: **high-quality drinking water** with a crisper taste and a slightly higher pH — buying bottled water becomes optional.

COMPACT, ON DEMAND

- **No storage tank** — up to about 70% of your under-sink cabinet space back.
- **Automatic flush** keeps the membrane clear on its own.
- Needs an **outlet under the sink** — if there isn't one, it goes on your quote up front.

WARRANTY

Drinking-water system — **1 year**, manufacturer, through us. Our workmanship — **12 months**, in writing. Filters and membranes are wear items on a schedule.

WHAT EVERY INSTALL INCLUDES

- Installed by **licensed plumbers or insured professional installers**, to our written install standard.
- Faucet included in **matte black, chrome or brushed nickel** — your pick.
- One countertop hole included; drilling stone is quoted.
- A walkthrough and your filter schedule.

OFTEN ADDED

Fridge / ice line · Power run (if there's no outlet under the sink)

AFTER THE INSTALL

Filter Plan — $200 a year. Proprietary filters made for this unit, supplied only by us. We ship them to your door on schedule, and they're built to change yourself.
